## "His Destiny"

With Neal Hart and Barbra Kent

It is more than a picture; it is grim reality that arouses every human emotion and causes amazement at the startling situation that follow in rapid succession, when men and beast battle for supremacy in the great stampede scenes as well as the thrilling Buffalo hunt, wild horse stampede and cattle roundup in which Indians and men of every type figure in the enactment of this powerful story with an enchanting love episode running through it, and bits of pathos lightened by humor, all so evenly balanced that it makes perfect entertainment.

Pictured midst the scenic grandeur of the foothills near Calgary and surrounding country.

## Ab. Brett Suffers Broken Jaw

While assisting in moving a building on the farm on Monday Ab. Brett was hit by a timber being used in the operation, and sustained a broken jaw in consequence. After receiving first aid from Dr. Freeze, he was removed to the Holy Cross hospital, Calgary, as an X-ray examination was necessary. He is reported to be doing as well as could be expected.

## F. T. Cook Will Give Health Lecture

A health talk will be given in the church on Saturday, Nov. 28th, by F. T. Cook of the Public Health department. Eight o'clock is the hour for beginning and the subject will be "How Life Begins and Social Hygiene," illustrated by pictures. School children of Grade VI and over will be addressed by after school hours. There is no admission charged in either case. This lecture is held under the auspices of the Women's Institute.

## Entertain Husbands December 11th

The Women's Institute have decided on December 11th as the date on which the members will entertain their husbands in the community hall. Like other innovations introduced by the W. I. this may be relied upon as being the one big evening for the married man, who will be the recipient of a Christmas present as well as being entertained during the evening by some other man's wife.

## C.W.L. Bazaar Saturday, Nov. 30

The C.W.L. bazaar will be held in the community hall on Saturday, November 30. There will be the usual sale of fancy work, home produce, etc., and in addition the drawing for a handsome bedroom spread with set of curtains, etc., to match. The hours will be from 3 to 6 o'clock.

## Sells Stock To Ag. School

On Monday A. S. McDougall shipped five Oxford ewes and an Oxford ram to Mr. Ostlund of the Raymond Agricultural School. These were a fine lot and were much admired when being shipped.

## P.T.A. Reception Monday Evening

The Parent Teacher Association is holding a reception for the teachers in the new school building on Monday evening, Nov. 25th, commencing at 8 o'clock sharp. Everyone is cordially invited to be present and meet the teachers. It would also be well to hear in mind that the P.T.A. would like to enroll everyone in the district in their organization, the purpose of which is to aid in every possible way towards assisting the teachers and pupils in their work.

## Ladies' Aid Breaks All Records

The Ladies' Aid bazaar on Saturday afternoon and evening was the most successful event of the kind ever held here. Not only was practically everything sold that was offered, but in the evening the stock of chicken pie was entirely inadequate to supply the visitors and while most of the multitude was fed, nearly one hundred hungry persons were turned away. All the booths were exceedingly well patronized and the financial results were very satisfactory. The ladies are to be congratulated on achieving such an outstanding success. Total receipts exceeded \$500.00.

## Elks Now Plan Grand Masquerade

The Elk's dance on Friday night was a decided success. The music furnished by the Len Davis orchestra was excellent and the big crowd thoroughly enjoyed themselves. A masquerade dance on Nov. 29th is the next big event in this line and preparations for this are going forward in every direction. It is safe to say this will be the big dance of the season and for this occasion the Len Davis orchestra will appear in new novelty costumes. Costumes may be secured by applying to Sam Jopling, secretary of the Elks' lodge.

## F. X. Beingsnessner To Hold Auction

F. X. Beingsnessner is holding a sale of his farm effects on Thursday, December 5th. Included in the offerings will be all his pure bred Shorthorn cattle and York-shire hogs and a complete line of farm implements and household effects. This will be one of the biggest farm sales ever held in this vicinity and everyone should make a mental note of the date and make it a point to attend.

## Should Use More Fish

Up to the present time the per capita consumption of fish in Canada has not been large much less, for instance, than the consumption in Great Britain. Different factors have contributed to this condition. Today, with improved methods of processing and distribution bringing virtually all of the many varieties of Canadian fish within the reach of the people all over the country, and with scientists and health authorities bearing increasing testimony to the high value of fish foods, there should be a steadily larger consumption of fish in all parts of the Dominion. Most varieties of our fish are obtainable in different forms—fresh, dried, pickled, smoked, canned, so that fish may be on the table at any season of the year and may be prepared by the housewife in many different ways. It is to be said also that, in many cases at least, fish are cheaper than other foods. From the standpoint of purse as well as health and strength it is a good rule to have fish frequently on the family menu.

Take your foot troubles to F. J. J. Clapp's store on Thursday, Nov. 28, and consult the School foot specialist.

## Leishman Clothes

### RELIABILITY

Value cannot be correctly measured by price.

The average man usually has difficulty in sifting the good from the poor clothes out of the many that are on the market, and then he is uncertain what he should pay.

Put your trust in LEISHMAN clothes. They are nationally recognized as unsurpassed for quality and style, and what you will get out of them in wear and satisfaction will give you the true basis of clothing value.

## NOTES AND COMMENT.

Premier King and his colleagues received a splendid reception in Calgary, and the arena on the exhibition grounds was not large enough to accommodate the huge crowd that gathered to hear the speeches. There can be little doubt that the present Dominion government holds the confidence of the people of the west to a constantly increasing extent, despite the fact that so many Dominion representatives from Alberta are practically aligned against him.

Wheat has taken the up grade again in price and exports have increased to a large extent. When it is considered that from the close of navigation to the first of the year is the duller time for wheat, usually, present conditions are decidedly hopeful for a good price being realized for the Canadian crop.

Following a beautiful fall we are now being treated to what might be readily called beautiful winter weather. There are little lapses from this description but they are few and far between.

Motor accidents continue to be a feature of the daily news to an almost alarming extent. Accidents will happen to the most careful and efficient drivers but there is a growing feeling that too many irresponsible people are driving motor cars and using little discretion in their driving.

In his Calgary address Premier King stressed the need of unity and vision broad enough to see beyond immediate surroundings to build a nation. The same thing applies to a community. When individuals limit their activities to their immediate business entirely and fail to show any community spirit little progress is possible. The broader vision is just as necessary in community as national affairs.

There was an idea that the saturation point in regard to used cars was many years away. To judge by the advertising matter being circulated at the present time it looks as though there was a very decided beginning of saturation in Alberta in this line at the present time. At any rate there is no danger of having to wait for delivery of a used car when you want one.

What was described as a halloween joke letter by a correspondent of the Press, turns out to be a letter issued by the Consolidated School Board as a questionnaire to rate-payers of the district, with a purpose so direct it could not be overlooked. From the editor's standpoint the item printed seemed harmless, and it is a matter of regret to find that controversial matter crept into news correspondence to the

annoyance of the School Board or any other public body or individual. Where criticism of this kind belongs is above the signature of the writer, not under the guise of correspondence. In future we must ask all correspondents to strictly avoid anything of a controversial nature in their communications. The citizens of Lomond will undoubtedly find the building of a community hall a more or less difficult proposition. It will require persistent self-sacrifice on the part of the promoters for a considerable time. But if failure is regarded as an im-

possible thing to accept there will be success in the end. Champion worked at this matter for some years before the Elks came along and cemented the community together on the project. Accomplished it is a credit to every individual in the community and to the community at large, and it will be found to give an impetus to any further community propositions that may be undertaken.

**Lutheran Church Services**  
The Lutheran Church still preaches the Gospel of Christ, and Him crucified. Lutheran services will be held, the Lord willing at the Lutheran parsonage on Sunday, Oct. 27th, at 11:00 a.m. Sunday School after services.  
You are heartily invited to attend and to bring your friends.

# International Conference To Simplify The Calendar Is Expected To Be Held Next Year

Action taken by the Assembly of the League of Nations at its recent session holds much promise that an international conference to simplify the calendar will be held next year, said George Eastman, chairman of the National Committee on Calendar Simplification, in a statement commencing upon advice he has just received from Geneva.

Mr. Eastman said that a resolution had been adopted by the Assembly which automatically placed on the agenda of the next meeting of the League Conference on Communications and Transit, probably in December, the findings of his committee, the calendar reform resolutions of the International Chamber of Commerce, the recommendations of the French and Belgian calendar committees, and resolutions adopted by various national and international bodies, all directed to the League.

The Communications and Transit Conference, Mr. Eastman said, will in effect act for the League in the matter of calling an international calendar conference and it was his belief that the accumulation of recommendations from different countries, and those of the International Chamber of Commerce, could not but impress the conference that the time for international action on calendar reform is ripe.

Before the meeting is held, reports may be received also, he said, from national calendar committees in Germany, Holland, Hungary and Peru, Cuba and several other of the Latin-American countries. The Conference will also have been informed of the results of the calendar referendum of the United States Chamber of Commerce, now in progress among local chambers, which calls for opinion on calendar simplification and whether there should be an international conference in which the United States should participate. Mr. Eastman felt that judging by the number of favorable expressions already given by Chambers of Commerce to his committee during its own inquiry the referendum would show approval of calendar simplification.

## Camouflaged Sardines

Fish Must Be Correctly Labelled If Sold In Great Britain

The description "sardines" may be applied in Canada to certain fish caught there and it is even permissible when they are shipped to most parts of the British Empire. But if the product is sent to Britain and South Africa, the term is not allowed. This unusual information was elicited when a questioner in the British House of Commons asked the reason for this discrimination against Canadian produce.

Hon. W. R. Smith, parliamentary secretary to the House of Trade, replied the courts in Britain had decided the name "sardine" could not legally be applied to fish not really sardines. The produce may be sard, but "sardine" must be omitted from the wrapper. Other countries besides Canada are subject to this restriction.

**Finland To Have Navy**  
Finland, it is understood, has started creation of her first navy. Two cruisers of 4,000 tons each and four submarines and four torpedo boats are under construction. Two of the torpedo boats are being built in England.

On a few occasions the northern lights have been seen as far south as Mexico City.

The tongue of a seventy-foot whale has been known to yield as much as a ton of oil.

He: "Whatever I say goes."  
She: "Then talk to yourself awhile."

"You look in better health than when I saw you last. Where have you been?"  
"In prison."—Montague, Charlton.

## Does Not Envy France

Germany Sees Advantage In Having Small Army To Support

Out of her home population of 41,000,000, France keeps 413,000 young men constantly in Northern Africa, a white army of 60,000 men, in addition to 11,000 colored troops. In their new frame of mind the Germans look on these forces with complacency. They involve the French Government in huge annual expense, and they entail the withdrawal of a large proportion of the man-power of the nation from productive work, sixty-five million Germans, with an army limited to 100,000 men, are clearly in a much more advantageous position than the French for the development of their country's trade and manufactures. They would not have conscription even if the Peace Treaty permitted it. After ten years of freedom from the burden of military service the whole nation would revolt against the bare idea.

## Dairy Cow Efficient Food Producer

With increasing rentals and values of farm lands, dairy farming is rapidly replacing other types of livestock raising.

A dairy cow producing 8,000 pounds of milk a year furnishes 1,000 pounds of dry matter, all of which is edible and digestible. A two-year-old steer weighing between 1,200 and 1,300 pounds furnishes about 500 pounds of dry matter, not all of which can be used for food. In other words a fairly good producing dairy cow furnishes twice as much edible dry matter in one year as a good two-year-old steer when he is killed for meat. A cow can be kept for additional years of service, while to replace the steer, another animal must be fed for a period of two years.

The annual consumption of milk per capita has increased in Canada from 24½ gallons in 1921, over 32 gallons in 1929. These figures reflect all those who buy their milk and include all forms of consumption.

With growing acceptance of milk as a food has come an increasing knowledge of the proper care of milk on the farm. Because orders for food and animals in the cow stable are easily taken up by milk, the milkman's job is not so much in the hands of the consumer as it once was.

With growing acceptance of milk as a food has come an increasing knowledge of the proper care of milk on the farm. Because orders for food and animals in the cow stable are easily taken up by milk, the milkman's job is not so much in the hands of the consumer as it once was.

## Work Of The Illustration Stations

Useful Purpose Is Served In The Interests Of Agriculture

Illustration stations operated as a part of the Experimental Farms system, are serving a useful purpose in the production and distribution of improved seed and poultry. In the report of the stations for 1928, published by the Department of Agriculture, at Ottawa, it is shown that one station operator sold seed of improved varieties to thirty-five individual farmers, and that almost 11,000 bushels of seed were distributed in this way from the Alberta station that year. From one Alberta station there were sold 1,200 eggs from winter laying birds for hatching purposes, and from all illustration stations in the province almost 4,000 eggs were sold for hatching in the spring of 1928.

According to this report rapid progress is being made in the more general use of advanced farm machinery. In 1928, it was pointed out, two combine harvesters were sold in the province of Manitoba. Two years later 308 were in use in the province, a questionnaire sent by the chief supervisor of the illustration station to the majority of owners of combines brought replies that indicate satisfaction with these machines. The auto truck is also said to be coming into fairly general use as a means of hauling grain.

In British Columbia the illustration stations are encouraging the growing of clover and alfalfa. When the illustration work was undertaken in the Pacific provinces, the crop survey showed less than two acres of alfalfa grown in the province of British Columbia. Test plots were set up at the stations and these were extended to demonstration blocks under field conditions. The acreage devoted to this crop has increased greatly up to 1928. The clover acreage has also increased, particularly throughout central British Columbia. There being now thousands of pounds of clover seed threshed in certain of the districts in which the stations have given attention to this crop.

"The railroad type—whistles at every station."

One way to put money into circulation is to take it to the race-track.

## Reindeer For Northern Manitoba

Will Drive Herd Of About 15,000 Reindeer From Alaska To Churchill District

The Northern Mail, published at The Pas, Man., in a special despatch from Churchill, Manitoba, last week, states that "an official of the Dominion Government is in Churchill making arrangements for an immediate drive of a herd of about 15,000 reindeer from Alaska to northern Manitoba."

The official is quoted as stating, "the barren lands of Northern Manitoba is the best possible for the development of the industry on a large scale."

The Northern Mail states that the drive will start some time next spring, according to unofficial reports.

At the present time a drive of a huge herd of reindeer is being made from Alaska to the Mackenzie River basin.

# Agreement Reached Between Canada And United States As To International Air Traffic

## Milk In The Nations Health

More Sanitary Methods Of Production And Handling Is Desired

All of foods used in the family life of the nation have such a direct relation to the nation's health as milk, and the public are quite within their rights in demanding that the old time dairyman with his carefree habits and limited knowledge of sanitation should give way to the better trained, more careful producer.

These ideas are expressed in a concluding word by U. K. Johns and A. G. Lockhead, bacteriologists at the experimental farm, at Ottawa, in their new bulletin "Teating the Producer's Milk for Quality." As a means of raising the minimum poor of quality milk judged from the standpoint of food value, cleanliness, healthfulness and fine flavour, health departments of cities and towns and the large milk handling companies are insisting more and more upon sanitary methods of production and handling, disease-free dairy herds and employees, properly supervised pasteurization of the milk and protection from recontamination after pasteurization has been given. By giving careful attention to all of these points most of the large cities have almost completely eradicated milk-borne disease. In the smaller communities that are not so far advanced in milk sanitation, however, properly pasteurized milk cannot be obtained, this bulletin No. 123, of the Department of Agriculture, at Ottawa, recommends the householder to pasteurize their milk in their own homes.

The official is quoted as stating, "the barren lands of Northern Manitoba is the best possible for the development of the industry on a large scale."

The Northern Mail states that the drive will start some time next spring, according to unofficial reports.

At the present time a drive of a huge herd of reindeer is being made from Alaska to the Mackenzie River basin.

The Minister of National Defence announced that an agreement has been arrived at between the governments of Canada and the United States relative to international traffic by air between the two countries.

This traffic has been regulated since June, 1921, under a provisional agreement reached then. The new agreement supersedes this and provides for its regulation in greater detail. It is reciprocal and covers the admission of civil aircraft registered in one country to the territory of the other. The issuance of pilot's licenses in both countries to nationals of the other and the acceptance of certificates of airworthiness for aircraft equipped with airways by the Department of National Defence, and must bear the registration letters allotted to it by that department. In the same way aircraft of the United States entering Canada must be registered and passed on airways by the Department of National Defence, and must bear the registration letters allotted to it by that department. Aircraft desiring to cross the international border must carry licenses issued to them by the Department of National Defence in Canada or the Department of Commerce in the United States.

It also provides that the taking of aerial photographs by the aircraft of one country is not permitted over the territory of the other.

Under the new agreement, aircraft and pilots licensed to carry passengers and cargo by either Canada or the United States may fly from one country to the other, but must not operate commercially between points in the territory of the other.

The new agreement becomes operative immediately and will continue in force until 30 days notice of desire to terminate it is given by either country, or until it is superseded by a further agreement between the two countries dealing with the same subject, or by enactment of legislation in either country inconsistent with the terms of the agreement.

No special permission is now required to cross the border. So long as aircraft are licensed and flown by licensed pilots they may fly from one country to the other, provided the customs and immigration requirements are fully complied with.

No special permission is now required to cross the border. So long as aircraft are licensed and flown by licensed pilots they may fly from one country to the other, provided the customs and immigration requirements are fully complied with.

## The Singing Fool

By HUBERT PAUL  
Copyright, 1912, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrell, the cigarette girl, but he doesn't know it. He marries Molly Winston, a ballad singer, and wins fame as a composer of popular songs. When Molly's baby, Junior, is about two years old, Molly drops to a derelict. One day, as he wanders down a back street, he sees Grace Farrell on the opposite corner. He runs away and Grace hastens to Blackie Joe's club to tell him the news.

### CHAPTER XXII

"I just saw someone we both know," Grace began, with a tired, father-still-in-the-same-old-same-old look.

"No?" Blackie put down his cigar.

"Where?"

Briefly Grace related the circumstances of their encounter.

## Farmer Tell Why they Clip Cows

A CERTAIN farmer wanted the facts about clipping cows, so he wrote us for names of those clipping machines.

He wrote them.

Now he himself is pleased with the Stuart Clipper Machine he sent to the letters which made him decide the clipping machine is a good investment.

Here are some of them:

"I have been shipping to Boston's Milk Plant regularly for 7 years and during that time have never had a can of milk returned. I get cleaner milk and find my cows easier to keep clean so for that alone I would say a clipping machine is a good investment."

Billings Bridge.

"I always clip my cows full. Some half up and then they are inclined to be woolly. I clip them all over, as I find they are clean and much easier to keep clean, and I sure does reduce the bacteria count and I am sure we get more milk as well. I always get more milk as well, so I never clip a cow without a good reason."

Deboro.

"We have had a power clipper for 7 years and would not do without one. It is a great help. The milk is easier to keep clean and pure. Keeping down dirt sure will produce more milk."

**HOW TO CLIP COWS**

Measure the principal source of bacteria, cannot follow at milking time run off into the pail. In half an hour, under a white cloth, the milk is kept clean all winter.

Find some to measure along the spine, which explains why some farmers clip a side of the cow to take care.

Farmers who have warm stables and drinking water inside, usually clip their cows all over.

Buy a clipping machine and make a small fortune. It will save you less work. Stuart's No. 1 Clipper can do a wide job of clipping with its strong, sturdy, self-cleaning and will last for years.

At your dealer, Blackie.

Satisfaction or money refunded.

trema cruelty and desertion. It is understood that Mr. Stone, whose whereabouts are unknown, will not fight the case.

"Among the goings of the boulevards it is said that as soon as Mrs. Stone's divorce is granted, she will marry John Perry, well known bon vivant of Broadway. The couple are seen to get a great deal at the Riviera resorts, where Mrs. Stone's beauty and chic attire have attracted a great deal of favorable attention. On the bench she is frequently accompanied by her baby son, Junior Stone.

"Meanwhile Al Stone's old friend from Broadway is wondering what has become of the former successful song writer. At one time it was said that Al, too, had come to France, but this was denied by those in the know."

Al had dropped the paper with a little smile. So Molly was charging him with cruelty and desertion? The terrible irony of the accusations dashed him for a moment. And Molly was preparing to marry Perry? Oh, well, it didn't matter; nothing mattered any more. Let her say what she pleased. He would get his freedom. Yet the picture of Junior, on the Riviera beach with his mother, remained with Al for a few days. He wondered if Junior still chattered and laughed as he had in the old days and whether he remembered his daddy. Al looked down at his shabby clothes. He certainly wouldn't want Junior to see him as he appeared now—the pennilessness of failure. No, Junior must never know what had become of his daddy. Al's pride was strong enough for him to make that decision.

After that Al still studied the newspapers for other items concerning his family, but nothing else appeared. Nor did Molly send any letters. Al had left word that his mail was to be forwarded care of an obscure East S. bank, where he had placed his money. But every time he called at the bank for additional money, he asked for letters, he found none from Molly. Letters from Marcus and all his old Broadway friends drifted in, but these he quickly tore up without opening them.

Recently he had ceased to read the papers or to ask for letters. His life in New York was dwindling, dropping down to the smallest circle. Even this interest was passive rather than active—he did not really care about sleeping, dressing, eating, wandering through the streets. It was done simply through habit—his last home in New York. If that passed from one of these days it meant dark oblivion for the man who had once been light-hearted Al Stone.

Seeing Grace on the street had proved a terribly disturbing shock to him. In running away, he had followed his first impulse—but then, his conscience had bothered him. He knew Grace's feelings would be hurt. After all, Grace had been one of his best pals back in the old days at Blackie Joe's. He remembered her as she had looked then—a startled frown, a look of surprise, a certain developed into a stunning grin.

(To Be Continued.)

**A Walled Arabian City**

Banua, a town in the desert of Southwest Araba, is surrounded by a thick wall of rubble and mud, some four miles about, with four principal gates and many towers, mostly in ruins. Within this storied Arabian city are forty-eight mosques. In the neighborhood of the Grand Mosque, are the lapidaries who cut the beautiful Yemen stones of quartz and chrysochrae known to the outside world.

## Furnace Titled Eskimo

Could Not Understand How the Heat Was Made

May Lee Davis, writing in North American Review, says: Eskimo Muk-luk had come to pay her first social call on me in that far Alaskan home I knew so many years ago.

"How did you get here, Muk-luk? I was expecting you to register and pointing to the black grout hole in the floor. 'How come hot?' 'No see him fire. How come, please?'

Now I felt that the complex matter of a hot air furnace could be better shown than explained, so we descended to our small cellar where an empty crude oil drum had been converted into a miniature furnace. In the dim light and the steamed glow of the open draft, shadows flickered and the small asbestos-wrapped pipes, reaching out from the furnace, looked like small arms above, stretched out in eerie gesture. The little woman caught at my hand in terror.

"Very hot devil him," she whispered. "How you talk him devil? How you make him breath hot? 'You talk him devil, 'see Muk-luk, good devil. If you feed him plenty wood, he makes plenty fire, good and plenty, upstair.'"

But she was still clutching tightly to my hand as we went up the short steps.

## NERVES WERE BAD

Could Not Sleep Tired All Day Long

Mrs. Florence Outcrop, Bark Lake, Ont., writes: "I was troubled with my nerves, could not sleep at night, and felt tired all day long."

"A neighbor came in to see me one morning, she advised me to take

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## The Experience Of Many

People Are Constantly Echoing Words Of Swedish Landress

She was a humble Swedish Landress in the home of a Wall Street broker and she had the usual little nest egg of "life savings."

Exactly how she learned to understand the financial page has not been revealed—but in the end, in the course of time, the life savings mounted to the tidy sum of \$35,000 and she had visions of Sweden and luxury.

But they never knew when to stop. Ultimately, certain motor stocks slid sweetly down hill and took the \$35,000 with them.

That however, is not the high point of the story, which is far from being an uncommon one. What really makes it worth relating is the little gem of philosophy with which she closed the incident and which shall be quoted in her own words:

"It came so slow; it got so quick."

## Englishman Invents New Dance Floor

Savoy Hotel, London, England, Has Only One Of Its Kind In World

A dance floor that rises up to the level of the tops of the tables—at the touch of a button—was "opened" during the dinner and supper entertainments at the Savoy Hotel, London, England. It is said to be the first floor of its kind in the world. Measuring 44 feet by 25 feet, it rises with a great 18 to 20 seconds by means of hydraulic power. Thousands of gallons of water from the four artesian wells below the Savoy are used.

An official of the hotel said: "The inventor is an Englishman, W. J. Huggett, and he and our chief engineer, F. C. Pay, have been working on it for six months. It has cost over \$50,000, and has been constructed between 2 a.m. and 10 a.m. so as not to interfere with our guests' comfort. This enables all guests to see the cabaret without standing."

## WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take cold—especially during the changeable days of late fall and early winter. When the first symptoms appear—meaning, restlessness of the mother, nose—Baby's Own Tablets should be given at once. They will quickly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the house always feel safe. In fact they are the gentlest and most thorough laxative that acts on the stomach and regulates the bowels, thus driving out cold germs and indigestion and relieving the baby of the many childhood ailments which are the result of a clogged condition of the bowels or sour stomach. Baby's Own Tablets have been guaranteed to contain no drug at all, but are the same as the medicine known to our people which we have sent forth in our little boxes in our lone homes. Tell us rather be thankful that our sorrow lives in us as an indestructible force, only changing its form as forces do, and passing from pain into sympathy.—George Elliot.

## Has Interesting History

Small Cinema Was Built For Use Of Royal Family

Across the way from the Royal riding school in the labyrinth of streets between Buckingham Palace and Victoria Station is a small and comparatively new cinema with an interesting history. It was built by Mr. E. C. Lancelotti, a cousin of Lord Lancelotti, for the use of members of the Royal Family. The cinema is on the site of an old ecclesiastical building, and construction of a subterranean passage was commenced so that the cinema would be directly accessible from Buckingham Palace, but that idea was abandoned.

The first author to use a typewriter in the preparation of manuscript is believed to have been Mark Twain.

Miller's Worm Powders work so effectively that women can be cured of the pest. The pest passes away in the stools without being perceptible. They are safe and clean sweep of the intestines, and nothing in the shape of medicine is required. There when these powders are in operation. Nothing could be more thorough or desirable than their action.

The value of pearl shell raised during ten years off the northwestern shore of Australia was more than \$10,000,000.

**Abatement Stimper**

"S.U.P. 28" or para-benzoyl-para-amino-benzoyl-amino-naphthyl 3:6-sulfonamide is the latest treatment for influenza, described by Dr. Raymond M. Pearce, in the British Medical Journal.

**CASTORIA**

**An Ailing**

Are you prepared to render first aid and quick comfort for the moment your youngster has an upset of any sort? Could you do the right thing—immediately—when the emergency case arises without warning—perhaps tonight?

Castoria is a mother's standby at all times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation; to allay a feverish condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to meet the ailing youngster. It is just as

harmless as the recipe on the wrapper reads. If you see Chas. H. Fletcher's signature, it is genuine Castoria. It is harmless to the most sensitive. Doctors will tell you so.

You tell from the recipe on the wrapper how mild it is, and how good for little systems. But it is good for all. Castoria will a child is grown.

## Little Helps For This Week

"Blessed is the man whom Thou chastenest, O Lord, and teachest him out of Thy wrath." Psalm xlv. 12.

Do not cheat thy heart, and tell her, "Grief will pass away." Hope for that which is tomorrow. And forget today.

Tell her, if you will, that sorrow, Need not be the end in vain. Tell her that the lesson taught her, Far outweighs the pain.

—Adelaide Anne Procter.

It would be a poor result of all our anguish and our weeping, if we won nothing but our old selves at the end of it; if we could return to the same old love, the same old discontent, the same old light thoughts of human suffering, the same frivolous gossip over blighted human lives, the same feeble sense of the unknown toward which we have sent forth irrepressible cries in our lone homes. Tell us rather be thankful that our sorrow lives in us as an indestructible force, only changing its form as forces do, and passing from pain into sympathy.—George Elliot.

## Newest Use For Airplane

Traced Blackmailer By Following Carrier Pigeon He Sent Out

Aerial photography recently thwarted an attempt at blackmail, in Germany. A wealthy man received a package containing a carrier pigeon and a letter, which stated that if he did not forward a large sum of money by the pigeon's wing this given time, he and his family would be murdered. The pigeon was released and followed by an airplane, and an aerial photograph taken of the place where the bird landed. The house of the offender was easily identified. He was an unemployed miner, from one of the intended victim's mines.

## COD-LIVER OIL A WONDERFUL BUILDER

## WORLD HAPPENINGS BRIEFLY TOLD

Russia, which led the world in wheat exports, before the war, now does not produce what it consumes.

Winston Churchill, former chancellor of the exchequer, has been elected lord mayor of Edinburgh University.

Thos. Mann, widely known German novelist, whose best known work is "The Magic Mountain," has been awarded this year's Nobel prize for literature.

The Austrian government will shortly appoint a consul-general at Ottawa, Hon. P. C. Larkin, Canadian High Commissioner, was informed by the Austrian minister in London, Baron George Frankenstein.

It is reported that a sheep rancher in Nebraska has been offered sections of land at Finlay, Alberta, along the river, upon which he intends to set out a flock of sheep numbering about 20,000 next spring.

Semyon A. Shchastkov, chief pilot of the Russian plane "Land of the Soviet," which he flew from Moscow to New York, announced the Oskavik, his Soviet Aviation Society, had refused to advise his proposal to fly across the Atlantic ocean on the homeward trip.

Seized and condemned for illegal fishing in Canadian territorial waters on August 2 last, the United States fishing boat "Olympus" has been reserved for the use of the biological board of Canada. The boat, which was at Departure Bay, B.C., it was announced by H. W. Goggin, marshal in the Victoria admiralty district.

The former Kaiser from his exile at Doorn, has instituted a libel suit against the editor of a Berlin newspaper. The newspaper had said that the army was supplied exclusively with Krupp guns, greatly inferior to those of other firms, because the Kaiser was financially interested in a former Krupp works.

## For Automobile Protection

### Ohio Penitentiary Inmate Patents New Safety Device

An invention by an Ohio penitentiary prisoner may make automobile theft more difficult than it is at present. Lawson Hilemann, 22, of Akron, serving a sentence of from 10 to 15 years for burglary, has filed with a patent attorney an application for a patent on his dual auto control invention.

When the motor is stopped, it automatically locks the ignition, steering wheel and starting lever. The motor can be enclosed in a box six inches square and four inches high and mounted beneath the dash board.

### Started In Small Way

Adolph Gobel, millionaire frankfurter, laid the foundation of his fortune in a little sausage-shop in Brooklyn, near a public school. He fostered a taste among the children for piping hot "pups." The menu spread to adjacent seats of learning. So far into the moneyed row did Herr Gobel travel that his son can afford to play around the waters of New York with a luxurious yacht.

Leonardo was invented in the seventeenth century.

Many people, two hours after eating, notice indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has been used for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume of stomach acids, and at once. The symptoms disappear in five minutes.

## Swine Judging Competition

Sponsored By Agricultural Department Of The Canadian National Railways

Robert Hornby and Joe McCollum, young farmers of Armstrong, will represent British Columbia in the Dominion Championship swine judging competition to be held under the auspices of the Agricultural Department of the Canadian National Railways, at the Royal Winter Fair, in Toronto, early in December.

They earned this honor by being awarded the Provincial Championship in the tests among the Canadian National Boys and Girls Series Clubs of British Columbia. In the finals at Toronto, they will compete with teams from every other Province in Canada, the largest entry since the competition was inaugurated in 1925. Should they win, they will be presented with medals and will become the holders for one year of the trophy awarded by W. D. Robb, vice-president of the Canadian National Railways, and they will have the distinction of being the champion swine breeders and judges of Canada.

The Boys and Girls Series Clubs were started in 1925, by W. D. Robb, and Dr. W. J. Black, Director of Colonization and Agriculture, for the Canadian National Railways, for the purpose of encouraging mixed farming and improving the quality of swine and girls under twenty years of age to enter the contest.

Every province is now represented and the competitions can be regarded as truly Dominion-wide. District competitions are held first and the district winners compete in a Provincial Championship test, and the winners of the latter competition are given a free trip to the Royal Winter Fair at Toronto, and a chance to compete for the Dominion title. So far, Ontario, Manitoba, and Saskatchewan have won the Robb Trophy, one team being two girls.

## Recipes For This Week

(By Betty Barclay)

### MARMALADE GIDDIE CAKES

(About 15 cakes)

- 2 cups flour.
- 1 tablespoon baking powder.
- 1 teaspoon salt.
- 3 tablespoons sugar.
- 1 egg.
- 2 1/2 cups marmalade.
- 3 tablespoons melted butter.
- Orange marmalade.
- Extra sugar.

Mix and sift dry ingredients. Add beaten eggs and milk. Beat thoroughly and add butter. Drop by large spoonfuls on a hot greased gridiron. When puffed, full of bubbles and cooked around the edges turn and cook on the other side. Spread cakes with orange marmalade. Top up like jelly rolls. Sprinkle with sugar and serve at once.

### VANILLA RICE PUDDING

1 package vanilla junk.

1/2 cup maple sugar.

1 pint milk.

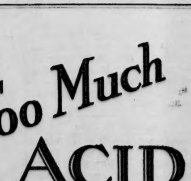

1 cup boiled rice.

Put the rice in a bottom of desert glasses, sprinkling maple sugar over it. Dissolve junk in lukewarm milk, and pour over rice. Let stand in a warm room until firm, then chill. Any left-overs of rice, etc., may be used instead of the cereal.

### French Children Play At Aviation

Aviation has become so popular in France that children are having ground races in miniature airplanes, mounted on three wheels. At Baule, the popular bathing beach, many contests are being held on the sands. One of the planes was labelled "Paris-New York."

Great Britain spends more than \$200,000,000 a year on motor cars.

You will never use cruet methods when you know this better method. And you will never suffer from excess acid when you prove out this new, quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has been used for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume of stomach acids, and at once. The symptoms disappear in five minutes.

## Gas Supply For Saskatchewan

Eagle Butte Oil Company, At Cypress Hills, May Solve Problem

The prospect of a natural gas supply for the cities of Regina and Moose Jaw, and for towns and villages extending westward as far as Maple Creek, has been brought measurably closer with the announcement of the Eagle Butte Oil Company to spend in a second well, in the centre of the Cypress Hills gas field, about 200 miles west of Regina and close to the Alberta boundary line.

The development of the Cypress Hills gas field is being pushed forward with anticipation of marketing gas in Saskatchewan. According to the findings of government engineers it is believed that the Cypress Hills field offers the closest supply of gas which can be transported to this market. A pipe line from the Cypress Hills would reach the town of Maple Creek first, and then proceed to Moose Jaw and Regina, supplying all towns and cities along the line, including Regina.

The whole problem has been carefully examined by competent engineers and has been pronounced feasible. Independent engineers who have examined the geological reports, and after an exhaustive examination of all possible sources of supply, pronounced the operations of the Eagle Butte Oil Company, Limited, to be the most likely to result in the development of an adequate supply of gas for the Saskatchewan market.—Free Press.

## Flying Taxi Service

Planned in England

Planes Being Constructed For Shilling-A-Mile Fleet

The first effort on a large scale to lose a fleet of "flying taxis" on the streets of England has been announced. It is learned that 100 DeSoto-Citrus sports coupe "planes" are now under construction at Croydon, the London airport, and that they are intended for taxi service as soon as they are completed.

The "planes" will be stationed at provincial cities and will be made available for rapid connection with the Continental air routes from London, or for transport between English cities and towns.

It is planned to run the planes at the passenger rate of one shilling (about 25 cents) a mile. The "planes" are all three or four seaters, with wings, for transport between English cities and towns.

Another interesting announcement concerning air travel came from the French Air Union, which said that it has London-Paris "planes" henceforth would make connections with the French air lines to North Africa. The new service brings Algiers within 100 miles of London.

## Flow 11,500 Hours

Excellent Work Accomplished By Ontario Protective Air Patrol

To protect the forests of Ontario, one of the province's most valuable assets, the Ontario Government protective air patrol has this year flown 11,500 miles or more, this is 5,400 more hours than the patrol flew in 1928, and without injury to a single member of the personnel engaged or to any of the passengers carried in the planes.

The forest patrol service covered the vast area of Northern Ontario, from Lake Superior to James Bay, and has many notable exploits to its credit in carrying relief to stranded expeditions and conveying injured or sick persons from outlying posts to hospitals.

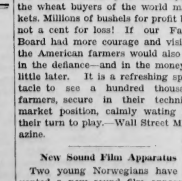

## Our Embattled Farmers

Through Organization Are Defying the Wheat Buyers Of The Whole World

The embattled farmers of the western Canada wheat pool are defying the wheat buyers of the world's markets. Millions of bushels for profit but not a cent for loss!

It is a refreshing spectacle to see a hundred thousand farmers, secure in their technical market position, calmly waiting their turn to play—Wall Street Magazine.

## SUNDAY SCHOOL LESSON

NOVEMBER 21

THE HIGHER PATRIOTISM

Golden Text: "He made of one people, of the flesh of the face of the earth."—Acts 17:26.

Lesson: The Book of Jonah.

Devotional Reading: Isaiah 55:1-7.

Explanations and Comments

Great Command Disobeyed and Punished

Jonah, the son of Amittai, was a Hebrew, the son of a Jew, who was sent to Nineveh, that great city, and Assyria, to preach the gospel, and to save the city from the clasp of the River, 600 miles from the Gulf of Persia.

The word of Jehovah came unto Jonah. How was there a message out of the sky? As he walked, or slept, or prayed, did these words shape themselves from silence into speech? Augustine heard a voice under the fig-tree, at Milan; John of Arc heard voices in the forest of Domremy.

We, indeed, have heard no voices, but all of us together have not compassed the boundaries of human experience. It is not wise, especially in these days of wonder, in which it is our privilege to live, to deny the possibility of anything.

What, however, is true, that the word of the Lord which came to Jonah has come also to a great many other people between Jonah and the time speaking to men. Messages from heaven have been received in all places have been received by men.

Jonah, however, was conscious of the great voice which came, over and over. "Ought you ought?" It is likely we are all listening to the word of God.—George Hodge.

Jonah, however, was conscious of the word of God. The first time, I know how to feel. After I've cried myself hoarse that I've made a mistake, they begin to weep, and the Almighty changes his mind, and great as they destroy them, it's all eyes like a gift from heaven.

Jonah, however, was conscious of the word of God. The first time, I know how to feel. After I've cried myself hoarse that I've made a mistake, they begin to weep, and the Almighty changes his mind, and great as they destroy them, it's all eyes like a gift from heaven.

## WANT COPY OF PEACE PACT IN EVERY SCHOOL

Winnipeg—Proposals to have a copy of the Brand-King peace pact placed in every school in the Dominion, which have been endorsed by Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada, and with the approval of educationists in the western provinces and will be considered by provincial governments as soon as formal notification of the project is received.

Under the plan, the federal government would furnish suitable copies of the peace pact for use in the schools, but for school administration is a provincial matter, the provincial governments would have to undertake the placing of the copies in the schools.

"I see no difficulty in carrying out such a plan," stated Hon. R. A. Hoey, Minister of Education for Manitoba, to the Canadian Press. "The government of Manitoba would be glad to co-operate, but it is a matter for the local school boards to decide."

Mr. Hoey said intimation would be sent to the various school boards in the province by his department, of copies being available and he thought most schools would avail themselves of the opportunity to secure a copy of the pact.

The British Columbia government will co-operate in the plan, it has been intimated by the minister of education for the coast province.

Speaking at Ottawa Falls, B.C., recently, where he unveiled a copy of the pact in the United Church, Mr. King said he would like to see copies of the pact in all churches as well as schools.

## Alberta Town Burned

No Lives Lost

Edmonton—Fanned by a driving wind which sprang up suddenly, a bush fire swept over and destroyed the thriving little town of Burnsville, an estimated loss of \$150,000. No lives were lost but several citizens suffered burns.

Practically all of the town's 200 inhabitants are homeless, many without clothing and all without food. The entire business section of the town, residences were burned. Burnsville is 83 miles north of Edmonton on the A. and G. W. line.

## Awarded Big Contract

Regina Firm Will Erect Calgary's New Post Office

Ottawa.—The construction firm of Smith Brothers and Wight, of Regina, Sask., have been awarded the contract for the erection of the new postoffice at Calgary, Alta., which is expected to cost \$2,000,000 when completely erected. The Regina firm won the contract with a tender for \$1,250,000. The postoffice will be eight stories in height, and will be given wholly to the operations of the Canada postal service.

Universal Suffrage For Turkey

Angora, Turkey.—President Mustafa Kemal Pasha, who has taught his people how to write in Latin characters and adopt western manners, now believes they should all have the right to vote. His government submitted a bill in the National Assembly, which if passed, will make universal direct suffrage operate in the next legislative elections.

Storm Destroys Fishing Nets

London, Eng.—Six hundred vessels of the Scottish fishing fleet lost 31,000 fishing nets in a gale off the east coast. It was revealed by Right Hon. Wm. Adamson, secretary of state for Scotland, that the nets were worth cost \$750,000 and most of them were not insured. There will be a marked shortage of fish for some time.

V.C.'s Guests At Windsor

London, Eng.—The Canadian veterans of the Victoria Cross and a few others from overseas had an interesting day at Windsor, as guests of the British Empire Service League. Windsor Castle and most of the gardens were freely open for their inspection.

Failed To Open Safe

New York.—Eight armed men held up the officer of the day and naval policemen at the navy base in Brooklyn and after an unsuccessful attempt to open a safe containing \$86,000, escaped.

W. N. U. 1552

## Decline In Grain Receipts

Vancouver, Montreal and Quebec Ports Show Great Reduction

Ottawa.—A decline of 112,731,253 bushels of grain is indicated in the receipts at the ports of Vancouver, Montreal and Quebec for the current year ending Nov. 6, compared with the figures for the corresponding period, last year. At the same time deliveries from these ports dropped 102,856,627 bushels.

Total receipts at these Canadian ports amounted this year to 155,266,117 bushels, compared with 267,997,410 bushels for the same period of 1928; deliveries amounted to 158,498,840 bushels as against 261,505,467.

## Fire Damages Seminary

Loss To Quebec Institution Estimated At Half a Million Dollars

Three Rivers, Que.—Fire swept through the oldest wing of St. Joseph's seminary, destroying that section of the institution which was erected in 1870 and was one of the best known classical institutions in the province. No lives were lost, although several of those caught in the building were taken out with difficulty. The damage was estimated at a million dollars and the fire was the most destructive to strike this city in the last 20 years. Numerous valuable documents and books were destroyed.

## Leaving Diplomatic Service

U.S. Minister To Canada Has Tendered His Resignation

Washington.—Villiam Phillips has resigned minister to Canada. Mr. Phillips, who is one of the leading United States diplomats, plans to quit the diplomatic service probably late next month and settle with his family in New England.

President Hoover accepted the resignation with great reluctance, and sought to induce Mr. Phillips to remain in the public service. However, the minister to Canada explained that he desired to leave office after many years in order to rear his family in the United States.

## Message From King George

Conveyed Sympathy To Widow Of Hon. J. A. Robb

Valley Field, Que.—The sympathy of His Majesty King George, was conveyed to the widow of Hon. J. A. Robb in a message received by Lord Willingdon, Governor-General of Canada and conveyed to Mrs. Robb.

"The King much regrets to hear of the death of the finance minister of the Dominion Government and wishes that you may convey the expression of His Majesty's sympathy to Mrs. Robb."

## Seeking New Air Record

John H. Mears Will Attempt To Beat Zeppelin's Time

Chicago.—John Henry Mears, of New York, speaking here announced plans for an attempt at the record for circling the earth low held by the Graf Zeppelin. Mears and the late Charles Collier, held the world's circling record until the Graf's flight. June, Mears said. The Pacific hop is to follow the path travelled by the Soviet fliers.

## Stock Judging Competition

Winnipeg, Man.—Joseph Racine, Radisson, is one of the six students chosen to represent the Manitoba Agricultural College in stock judging competitions at the Toronto, Royal and Chicago International Water Fairs which will open respectively on November 19 and 30. Five men constitute a team. The others selected are: J. M. Bowman, Alexander, Man.; Morgan Brooks, Winnipeg; John Conner, Deloraine, Man.; Walter Frazer, Beulah, Man.; and Earl Rasmussen, Wayne, Alta.

## Russia's New Budget

Moscow.—Soviet Russia's budget for the coming year, details of which have been announced, shows the huge total of 1,240,000,000 rubles (about \$5,695,000,000) which is 45 per cent. more than last year, and the greatest in the history of the Soviet states.

Large part of the new revenue is expected to come from direct and indirect taxation. The sum of 345,000,000 rubles will be devoted to education, this being more than 30 per cent. above last year.

## Premier Of Iraq Dead

Baghdad, Iraq.—Sir Abdul Munim, premier of Iraq, was found dead from bullet wounds recently. No explanation of the shooting has yet been made public.

## Proposed Alaskan Highway

Representatives Of United States Confer With Premier King At Victoria

Victoria, B.C.—Appointment of a joint committee consisting of two United States and two Canadian representatives to thoroughly inquire into the proposed highway through British Columbia and the Yukon territory to Alaska, was mooted at a conference held here between Premier Mackenzie King, Premier S. E. Tolmie, and United States representatives, including Major Malcolm Elliott, president of the Alaska roads commission, and members of the Seattle Chamber of Commerce.

The need for a thorough investigation of all angles of the project was stressed, and it was felt that owing to the size of the undertaking, an international conference was necessary.

The proposal is for British Columbia to improve the present highway between Vancouver and Hazelton, carrying it on to the Yukon territory for the Dominion Government to build it to the Alaskan boundary and the United States to take it from there to Point Barrow. The project is at sea level. Following the conference, Premier King intimated he would need further information before committing himself on the full-scale construction.

## A SHORT LINE FROM WINNIPEG TO HUDSON BAY

Ottawa, Ont.—The report of the engineers of the Canadian National Railway, who have been surveying a short line from Winnipeg to Hudson Bay, will be strongly in favor of the extension of the line now running north from the city to the Arctic.

This information was received from the Canadian recently. The report is not yet complete and will not reach the hands of Hon. C. A. Dunning, Minister of Railways and Canals, for several weeks.

The engineers, it is understood, will not only favor this central line to the north because it would slip hundreds of miles off the present rail distance between Winnipeg and Churchill, but they will point out another vital factor in Winnipeg's northern railway facilities. This factor will be the desirability of providing an air line from Winnipeg to the mining fields of Northern Manitoba.

The central line could be run northward along the shore of Lake Winnipeg, and then proceed along the shortest possible line to connect with the Hudson Bay road, which would carry it almost due north, or it could proceed north along the narrow strip of land between Lake Winnipegosis and Cedar Lake, finally to make contact with the Hudson Bay Railway at Upper Lake. This would give a shorter line to the north and also an air line to the mineral developments.

The cost of extending the central road in either direction would be approximately \$8,000,000. It must be understood in regard to this report, that the Federal Government is not committed to build such a line of railway. This inquiry was made because the Manitoba members of parliament requested Mr. Dunning to assist them in this matter. Mr. Dunning agreed, on the express condition that it be understood that the government would not be committed to make any expenditures on construction.

## Drums for Highlanders

This handsome set of drums has been presented to the 48th Highlanders Regiment, of Toronto, and is the gift of Lieutenant F. M. Ross. The regiment is allied with the "Glen Gairn" and upon its flag are inscribed many names, prominent among them being Xpys, Foutier, Somme 1914, Viny Ridge, Hill 70, Amiens, Canal du Nord, etc. The drums were made in London, England, and were shipped to this country by the Canadian Pacific Express Company on S.S. Duchess of York.

## LATE MINISTER OF FINANCE

Portrait of Hon. J. A. Robb

Hon. James A. Robb, Minister of Finance in the Dominion Government, who died at Toronto following a stroke of apoplexy, Mr. Robb was 70 years of age.

## British Ambassador

To Russia Appointed

Sir Edmund Hoey Has Been Transferred From Mexico

London, Eng.—Parliament have approved resumption of diplomatic relations with Russia, the government is busy in fully restoring the breach caused in 1927. The appointment of Sir Edmund Hoey as British ambassador to Russia has been announced. Russian minister will simultaneously come to London.

Sir Edmund has been British ambassador to Mexico for the last four years. He became a diplomat in 1902, and was appointed to Stockholm in 1904. Shortly afterwards he went to Tangier, and in 1906 to Paris.

Later Sir Edmund served in the British diplomatic service in Florida, Cuba, Jamaica, and Mexico City. Official announcement was made here that John Edmund St. John De Bonhomme Mores was named British ambassador to Mexico, succeeding Sir Edmund Hoey, who will become ambassador to Russia. The new ambassador has been in diplomatic service in Turkey, Japan, France, Persia and Colombia.

## Apple Shortage In States

Average Is Reported

Washington, D.C.—The apple crop in the United States this year is short and the "apple a day" slogan may be suspended temporarily. Compared with that of last year, it is of 23 per cent. and 45,000,000 bushels below the average. Scab damage in the east and worm injury in the west have resulted in an inferior quality. Prices have already advanced and promise to be 25 per cent. above a year ago.

## Gives Up Long Search

Seattle—Refusing to believe that his wife, two little girls and his baby son from whom he was separated in the San Francisco earthquake, were dead, a Vancouver man has just ended his 23-year search here in despair.

The story was unfolded when the modern Enoch Arden said that he had remained after searching vainly for his wife and children along the Pacific coast.

## First To Respond

Geneva.—Great Britain, the first country to answer, has accepted an invitation from the League of Nations to attend a conference for the establishing of an international tariff treaty. The United States and other non-members have been invited to participate.

## Moral Effect of This Construction

Toronto.—Action of Canadian banks in reducing the required margin of safety for loans on stocks was interpreted by leading bankers and stock exchange officials as a step to stem the present tide of pessimistic dump selling and to place the reassuring hand of high finance on the shoulders of the stock investing public.

C. E. Abbe, president of Toronto Stock Exchange, thought it "a helpful gesture by the bankers, likely to fulfill its apparent intention of inspiring confidence among the public and of having a general reassuring effect."

It will have no effect, however, in opinion felt, toward possible reduction of margin requirements asked of customers by brokers, and brokers will continue to ask the same margin percentage of clients as before.

## Protests Against Exclusion

Chinese Consul Would Like Discrimination Against Nationals Removed

Brockville, Ont.—A suggestion, that the present exclusion of Chinese immigration to Canada, was humiliating to the Chinese national honor and that the act of 1923 should be amended to permit the small quota of Chinese immigrants to enter Canada annually or else to contract a gentleman's agreement with China, similar to that now in force in the case of Japan, was made before the Rotary Club, by Li Tchiun, Chinese consul-general at Ottawa. He expressed a hope that the Dominion government would see its way clear to remove the present discrimination against Chinese nationals and predicted that with such restrictions removed, a tremendous impetus would be given the already increasing Canadian export trade with China.

## Honor Manitoba Citizen

Bronze Portrait Of Late Hon. Thomas Johnson To Be Unveiled In Ireland

Winnipeg.—A bronze portrait of the late Hon. Thomas H. Johnson, former attorney-general of Manitoba, will be unveiled at the celebration next June, in Ireland, of the 160th anniversary of the "Aithling," the national festival of Ireland. The portrait will be presented by the Manitoba government in recognition of Mr. Johnson's contribution to the progress and development made by the large Irish population of the province.

## Police Holidays Are Cancelled

Toronto.—All holidays for members of the Toronto police force have been cancelled; beats in all parts of the city extended and additional men placed on duty as a result of the series of hold-ups which have occurred here in the past week. The result of the crime wave is no nearer tonight.

Awarded Nobel Prize

Stockholm.—Professor Owen H. Kihlstrom, of King's College, London, England, was awarded the 1928 Nobel prize in physics. He is a fellow of the Royal Society and is known for his research work in the theory of electrons. The 1928 physics prize was awarded to the Dae De Hergle, of Paris.

Keeping Highways Open

Brandon, Man.—The first start for the season to keep the highways in this district open for travelling was made by the provincial authorities last week when a new monopoly was set to clean up the road between Souris and Boissevain.

Veteran Journalist Dies

Calgary.—One of the veteran journalists of Western Canada, W. Beaver Jones, for seventeen years the editorial staff of the Calgary Herald, died at his home here, after a lengthy illness, at the age of 56. He came to Calgary from England.

Work Being Slowed Up

London.—Rt. Hon. A. V. Alexander, first lord of the admiralty announced in the House of Commons that work on the naval base at Singapore will be slowed down as much as possible pending the results of the five-power naval conference.

Father Turgon Is Dead

Vancouver.—Rev. Father Joseph Turgon, 41, son of Senator O. Turgon, of New Brunswick, and brother of Mr. Justice W. F. Turgon, of the Saskatchewan court of appeal, died here following a lengthy illness.

## Advocates Free Trade

With Great Britain

Proposed Resolution To Be Discussed At Coming Session Of Parliament

Ottawa.—Free trade with Great Britain within five years time, was included in a proposed resolution on placed on the order paper of the House of Commons by W. R. Faneher, Progressive, Lake Umbagog. The proposal, which will be discussed at the coming session of parliament, reads: "Whereas, Great Britain has for many years been Canada's best customer for agricultural products, particularly wheat and wheat products; and

"Whereas, the tariffs of other countries are severely manipulated detrimentally to the exporting of Canadian products, particularly those of agriculture; and

"Whereas, in international trade it is imperative for any country to buy as much as possible from the country to which she sells, thereby reducing transportation costs to the minimum; and

"Whereas, for the general good of Canada, we deem it advisable to foster trade with the Mother Country to the fullest extent, while keeping trade within the Empire;

"Therefore, be it resolved, that in the action of the House of Commons, a resolution be passed on the free operation of the British preference as contained in our draft schedule, be removed, and Dominion government would see when the British preference should be progressively increased so as to have free trade with the Mother Country within a period of seven years.

## Protests Against Exclusion

Chinese Consul Would Like Discrimination Against Nationals Removed

Brockville, Ont.—A suggestion, that the present exclusion of Chinese immigration to Canada, was humiliating to the Chinese national honor and that the act of 1923 should be amended to permit the small quota of Chinese immigrants to enter Canada annually or else to contract a gentleman's agreement with China, similar to that now in force in the case of Japan, was made before the Rotary Club, by Li Tchiun, Chinese consul-general at Ottawa. He expressed a hope that the Dominion government would see its way clear to remove the present discrimination against Chinese nationals and predicted that with such restrictions removed, a tremendous impetus would be given the already increasing Canadian export trade with China.

## BANKS TO TAKE ACTION TO EASE CREDIT SITUATION

Montreal.—Measuring indication of the opinion of the banks of Canada, deflation of stock values on the Canadian markets has reached its logical bottom and that the banks are prepared to step in to help in the interests of stabilization was forthcoming when the leading banks acting together, announced here that they would accept 10 per cent. on call loans to brokers on stocks selling over \$20, and 10 per share on issues below that price.

In taking this action to ease the credit position for the brokers the banks will be benefiting a large number of marginal clients, for brokers generally feel that this will enable them to reduce their marginal requirements and preclude the necessity in many cases of sending out further calls.

The moral effect of this construction is being anticipated will be even greater in restoring confidence than the actual aid rendered, great as this will be.

Toronto.—Action of Canadian banks in reducing the required margin of safety for loans on stocks was interpreted by leading bankers and stock exchange officials as a step to stem the present tide of pessimistic dump selling and to place the reassuring hand of high finance on the shoulders of the stock investing public.

C. E. Abbe, president of Toronto Stock Exchange, thought it "a helpful gesture by the bankers, likely to fulfill its apparent intention of inspiring confidence among the public and of having a general reassuring effect."

It will have no effect, however, in opinion felt, toward possible reduction of margin requirements asked of customers by brokers, and brokers will continue to ask the same margin percentage of clients as before.

## ATTITUDE TAKEN AS TO ENTRY OF MENNONITES

Ottawa, Ont.—Widespread mis-information of what has occurred in regard to the proposed movement of 5,000 Mennonites from Russia to Canada, exists in Saskatchewan. Letters received at Ottawa from residents of that province, as well as the language used by various organizations in passing resolutions dealing with the question, indicate that the attitude of the Dominion Government in the matter has not been fully understood.

Hon. Robert Forke said that the Dominion would not put up a cent toward their passage money or their maintenance in Canada after arrival. Nor would he permit them to enter Canada, unless the Mennonites now in Canada guaranteed to keep them and prevent their being a burden on the public charges. Insofar as passage money is concerned, it is believed that Canadian Mennonites are prepared to put their own money into the hands of Mennonites themselves have not got it, they then simply cannot come to Canada.

The Communist newspaper the "Red Flag" publishes a confidential letter written on Sept. 8, by Dr. F. J. Dicks, German ambassador to Russia, to the foreign office at Berlin. It deals with the position of German peasants, mostly Mennonites, who settled in Russia in 1918, and leaving the Soviet in large numbers and trying to move to Canada.

According to the letter there is no prospect of the Soviet government abandoning its policy of socializing agriculture for the sake of a few hundred thousand German colonists or for the sake of her relations with Germany. It is officially admitted the letter was stolen and an investigation has been started to discover how it came into the hands of the Communists, who are using it, of course, as derogatory to Russia.

## Honor Manitoba Citizen

Bronze Portrait Of Late Hon. Thomas Johnson To Be Unveiled In Ireland

Winnipeg.—A bronze portrait of the late Hon. Thomas H. Johnson, former attorney-general of Manitoba, will be unveiled at the celebration next June, in Ireland, of the 160th anniversary of the "Aithling," the national festival of Ireland. ## CHAMPION CHATTER

Vol. 2

Thursday, November 21, 1929

No. 40

Published in the interests of the People of Champion and Farmers of this vicinity.  
GEO. L. DEPUÉ, Editor.

### EDITORIAL

Ever was a very tall lady—or at least that's what the Arabs believe her to be 20 feet high, and her tomb at Jiddah, the seaport of Mecca, where the earth's first apple-woman is supposed to lie, is in proportion to her extreme height. This tomb has not been opened in more than a thousand years.

Norman Carlson has purchased the W. Philpott farm. First time we know there will be a Carlson township equal to the Matlock reservation of past fame. Good luck Norm.

Communism is a profession and some men make a living at it. That is why it is always with us.

Win. Penn Motor Oil "Still the Best."

### To Prevent Kicking

To prevent cows from kicking take a quarter inch rope and tie it tightly around the cow's body, placing it just in front of the cow's udder. This will aid in breaking the udder and will subdue the worst kickers.

Harry Smith has purchased the J. O. Reid farm and expects to move on the place at the first of the year. D. Hartung moving to the M. G. Clever farm north of the coal mine or better known as the Joseph place.

Sergeant: "What is the charge officer?" "Fragrancy, sir. He's been drinking perfume."

After all this discussion we have heard about who's well this was to be, now it seems that it must be a Vulcan well.

Teacher: "You should say 'Bo's' 'Knees'—that's slang." "I say: 'But my father—he says Beesnee is rotten, and he often knows.'"

Don't overlook the Atwater Kent when it comes to considering the purchase of that radio, why not buy the radio that is a year ahead? The only manufacturer who has made it possible for those who do not live on a power line to enjoy Seventy-five Radio with all its advantages. The first to employ Screen Grid in any set. We predict that one year from now will see nothing else on the market.

### LOCAL AND GENERAL

C. E. Anderson has been ill during the week.

Mrs. H. C. Jopling is ill in the Holy Cross hospital, Calgary.

Mrs. Theriault of Calgary was a visitor here for a few days.

Mr. F. T. Cook spent the week end with Mr. and Mrs. W. Ulrich.

Mrs. J. N. Beaubier attended the King meeting in Calgary on Monday.

Dr. Bouck of Calgary was in town on Monday in consultation with Dr. Froese.

Mrs. Root arrived home from Oskias, Minn., where she has spent the last two months.

Mrs. Harry Smith was a visitor to Calgary, taking in the Sir John Martin Harvey plays.

The social evening which was being planned by the Church for Friday 22nd has been postponed owing to cold weather and other causes.

The basket social at Sanderson school on Wednesday, Nov. 20th, was a decided success. In every way. The attendance was very large and a very pleasant evening was enjoyed by those present.

K. R. McLean, R.O. of Anderson & McLean, Sight Specialists 208 8th Ave. West, Calgary, will make his monthly visit to Champion Field, December 20, at the Drug Store.

As will be seen by reference to an advertisement elsewhere in this issue Turkey Day at the Champion Meat Market will occur at a date early in December.

Mr. and Mrs. R. Ruggles, of the Guess Ranch were week end visitors to Mr. and Mrs. R. Root at Vauxhall.

Man wants but little here below. If he gets it from the farm; But woman wants a great deal less. To keep her body warm.

## Live Oysters

FOR SALE

AT

CAMPBELL'S

Found—String of beads with cross attached. Owner call at Chronicle Office.

If you have any foot trouble don't fail to see the Scholl foot specialist at F. J. Clapp's store on Thursday, Nov. 28.

Mr. and Mrs. J. Archibald are planning a trip to Ontario for the winter.

E. Siler and Geo. Matlock each made their limit kill while shooting west of Wetaskwin, each securing a moose and a deer.

Harry Coates is now located in the building next to the Rex Cafe and while waiting for the delivery of his oven is baking a line of buns, doughnuts, etc. It will be some little time before he will have his bakery fully equipped.

By mistake an editorial intended for the Lomond Press was made up in the Chronicle. Fortunately it will do no harm outside causing wonderment as to why it is there.

## Champion Farms Changing Hands

Recent land sales of note in this district include the purchase of J. Archibald's half section by A. S. McDougall, the price being \$45 per acre; the sale of a quarter section to A. Siegel by A. S. McDougall for \$50 per acre; the purchase of the J. O. Reid half section by Harry Smith at \$40 per acre; and the sale to Norman Carlson of the W. S. Philpott farm.

## Curlers to Operate Rink This Season

The curling club will operate the curling and skating rink this year, and at a meeting held on Tuesday evening Frank

## Ford Tudor Sedan

To be sold at a Bargain. In good running condition. Must be sold before Nov. 20. Any reasonable offer accepted. Apply to B. M. ROBERTS

Holmes was engaged as caretaker and arrangements made to make the necessary repairs to the rink equipment so that preparation of the curling and skating 'e' might proceed at an early date. The new officers are taking the matter in hand with an energy that promises to make this the banner season in winter sports for many years.

The Women's Institute have arranged to have a dance on Dec. 27th, the Friday night between Xmas and New Year's in the Community hall, Len Davis orchestra to furnish the music. The draw for the cedar chest will be made during the evening and a wonderful time is anticipated. Please keep this date in mind.

The action of W. S. Ryan against Super City municipal district for damage sustained on Nov. 11th last, when his car was precipitated into a hole on the highway and he received injuries which included permanent damage to his knee, was settled by mutual agreement out of court, Mr. Ryan receiving \$2000 damages and expenses of \$250. A. McGillivray and J. Fred Scott of Calgary appeared for Mr. Ryan.

The dance in the Alston community hall on Friday, Nov. 15th, was well attended, despite counter attractions and the evening was a particularly pleasant one. The Melody Five supplied splendid dancing music for the occasion.

### A Correction

In the list of prizes won by B. H. A. McDonald at the Calgary Stock Show this fall it was stated that Mr. McDonald bred the champion and reserve champion ram. This should have read "champion and reserve champion ram lamb."

The champion ram in the Oxford class was bred and exhibited by A. S. McDougall.

### In Memoriam

The grim, silent reaper, Thine God's love sublime, Has gladdened a bright sunbeam And left shadows behind.

Thus has this tale So often been true, He reaped the ripe grain, And the bright flowers, too.

The Father overrules, In each of our homes, And plucks our fairest To bloom near his throne.

He is full of compassion, And ready to bless, But takes them away Because it is best.

He gathers the purest And sweetest to Him, For hearts akin and them The veil is so thin.

Our hearts ask Him why? And this answer is found; He is gathering the jewels To wear in his crown.

(Composed by Aunt Ollie West in remembrance of little Hazel Smith). Inserted by the Family.

In fond and loving memory of Hazel Smith youngest daughter of Mr. and Mrs. Dean Smith, who fell asleep Nov. 21, 1928. God needed one more angel, He made his hand complete, He chose dear little Hazel Because she was so sweet.

Aunt Gertrude and Uncle Harry.

Was Mr. Peggoty Too Gentle?

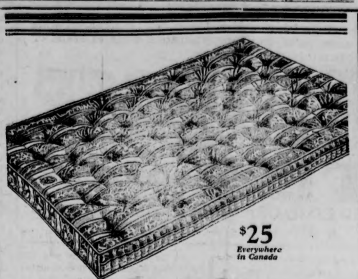

Dickens gives a great study in gentleness in his characterization of Mr. Peggoty and Emily. Read it again and hear it retold on Sunday evening. Sermon subject—"The Fruit of the Spirit—Gentleness."

### United Church of Canada

Sunday, November 24. Sunday school, 11 a.m. Sanderson Sunday School at 2:30—Preaching at 3 p.m. Evening worship at 7:30.

Subject—"The Fruit of the Spirit is Gentleness." "Man is his own star, and the soul that can Render an honest and a perfect man. Commands all light, all influence, all fate."

—John Fletcher.

## Buy an Ostermoor

For Economy as well as Quality

FOR thirty years and more women have instinctively thought of Ostermoor as the quality mattress.

Today they think of it as the economy mattress as well. At \$25 it is the biggest mattress value to be had in the land.

Soft, springy, resilient. It is guaranteed.

Built, not stuffed—hand laid, layer upon layer, of the finest, cleanest, white cotton felt.

## Aching Feet

The newest scientific methods of obtaining immediate and lasting relief will be explained

By Dr. Scholl's Foot Expert

Thursday, Nov. 28

If you have a painful, stubborn foot ailment of any kind—corns, callouses, bunions, crooked or overlapping toes, weak or broken down arches, weak or swollen ankles, tender heels, excessive perspiration, hot or odoriferous feet—you can now get quick and lasting relief.

Through Dr. Scholl's newest scientific and advanced methods of correction, any foot trouble is now instantly relieved and the cause removed. To demonstrate this fact a Foot Counselor Expert of Dr. W. M. Scholl's personal staff will be in attendance at our store on the above date.

Without removing your stockings, this Expert will make a scientific analysis of your feet on Dr. Scholl's Foot-Cure Graph and show you what your trouble is and what can be done. It will then demonstrate how simple and easy it is for you to have real relief. No charge is made for this valuable service.
